01 The logo

Anatomy

The byteSquad logo pairs a byte-cluster mark with a clean wordmark. Four rounded squares represent a unified squad of bytes; the tilted sky-blue square signals energy and the standout member of the team. The wordmark uses lowercase 'byte' with a bold 'Squad' — a nod to camelCase, the way developers name a variable.

02 Backgrounds

On light backgrounds

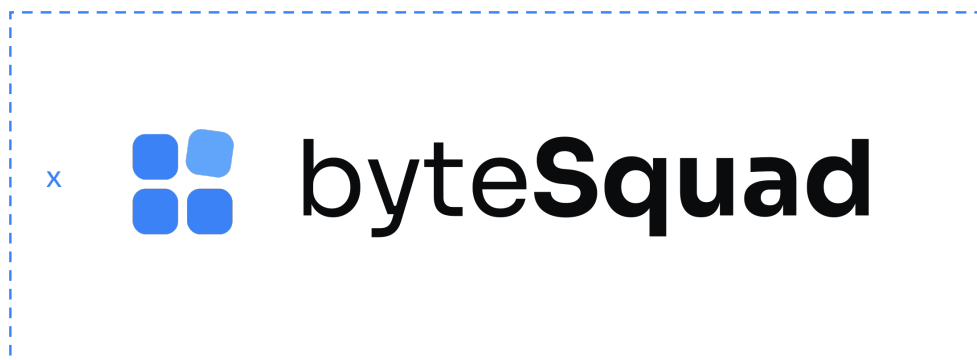

On dark backgrounds

Use the mark on its own for app icons, favicons and social profile pictures.

Always keep strong contrast between the logo and its background.

03 Clear space & sizing

Keep clear space of at least 'x' (the mark height) on all sides of the logo. Nothing — text, images or edges — should enter this zone.

Minimum size

Digital: 24px tall · Print: 15mm tall

Below these sizes, use the icon (mark) alone for clarity.
